A Big Thank You  
JONI LAMB

As a child, I invited Jesus into my heart. But somewhere along the way, I got lost and turned to drugs to numb the pain. However, today is a new day - a fresh start. After hearing Marcus Lamb talk about God's love on Daystar, I asked Jesus to forgive me and fully surrendered my life to His will. No more drugs. No more walking a road that leads to destruction. Just a heart full of hope and a desire to love and serve others like Marcus. I'm no longer lost. And with God's guidance, I never will be.

Brian from Pennsylvania

# SCIENCE & TRUTH

with Dr. Simone Gold

## **For those who don't know, tell us a little about your background and what led you into medicine.**

My father was a doctor; I was raised up to be a doctor my entire life. He had an office in our home and he would see patients in our home in the evening. I frequently went with him on rounds to the hospitals and nursing homes

## **What led you to start America's Frontline Doctors, and what was your vision for the group?**

There was omnipresent propaganda around everything people were being told. It was all untrue. Lockdowns did not work, masks did not work, early treatment did work. The hospitals were not overwhelmed (except short bursts – a few weeks – in a few areas). I decided to organize doctors to speak directly to the American people. I invited doctors and YouTube personalities to an educational day in Washington DC on July 27, 2020. We did a total of eight hours education, with doctors teaching people: children, schools, masks, healthy elderly, frail elderly, Africa/worldwide, hydroxychloroquine, fraudulent science. We videotaped this and broadcast it to the world. This went viral (20 million views in eight hours) before we were de-platformed by all Big Tech.

## **Daystar was able to give \$100,000 to help establish and grow America's Frontline Doctors. What did that mean to you personally, and what were you able to accomplish with it?**

I believe Daystar gave even more financially (I think it was closer to \$130,000) and I understood it was from small dollar donations from many thousands of viewers. It is impossible to overestimate what it meant to me personally. It was "the wind beneath my wings." From my perspective, I was a practicing emergency physician doing and saying what I knew was honest and ethical. I could not know, and did not think about, the size of the audience that was waiting for our words and actions. When we had 20 million views, when my personal Twitter went from zero to >100,000 in one week, and when thousands of people gave their hard-earned dollars to keep me going, it helped me realize how important it was to keep speaking the truth. Modestly I will say that this money was extremely well spent. Most importantly I created a way for hundreds of thousands of Americans to obtain access to lifesaving (and fear reducing) medication. This changed the narrative. We have brought 12 aggressive lawsuits against the FDA, CDC, Universities, DOD, Kaiser. We learned the Judges refuse to read the lawsuits (literally don't read the papers – in one case the Judge turned back a "no" in one hour) or the system is corrupt (all federal Judges in one state one by one recused themselves – unprecedented), refused to rule (May 2021 case still not adjudicated). But these cases are important benchmarks, records of facts. These lawsuits have slowed the speeding train, and in that slowing down, the world is coming to see what we have been saying all along. And we have expanded

I am a daughter of a Holocaust survivor. Requiring shots, 80 years post Holocaust... is a shocking state for humanity to find itself.

into News and Citizen Corps (community organizing.)

## **As both a doctor and a lawyer, what do you find most concerning about the type of mandated vaccination and safety protocols we've seen over the last two years? And why should people have a right to say what goes into their bodies?**

The forced vaccination campaigns are a crime against all humanity. Humans have a complete, unabridged, non-debatable, right to their own body. To say anything otherwise is to support slavery. To support that someone's body belongs to someone else. This is G-d's Law and this is Man's Law – at least it always was until 2020. This was well settled everywhere following the horrors of the Holocaust, the Nuremberg Trials, which led to the Nuremberg Code (of Medical Ethics) absolutely forbidding human experimentation and requiring informed consent. The Nuremberg Code, and the Helsinki Declaration became the basis of United States Federal Laws for the same and the language is crystal clear that it is illegal to mandate shots. I am a

daughter of a Holocaust survivor. Requiring shots, 80 years post Holocaust, 70 years post Nuremberg is a shocking state for humanity to find itself.

## **Let's talk about the weapon of censorship against doctors and scientists who question the plan and narrative. What have you seen and experienced, and how dangerous is this in your opinion?**

Everything we have seen is downstream from censorship and propaganda. Not permitting free speech results in death

– either immediately as we saw these past two years, or more slowly as the human spirit strangulates. There is no government law more important than free speech: none. That is why our Founders made it First. I have personally seen patients whom I would call murdered – due to the lack of free speech. When a hospital has a policy that financially enriches itself if its doctors follow a deadly protocol and the doctors don't have easy access to the science that the protocol is wrong – that results in death. When a school has a policy that requires children to mask their faces which stunts their learning, growth, social interactions, imagination, and happiness – that results in stunted lives. When a healthy person with a birthright of decades of good health trades that for a coerced shot that they didn't want but took to keep their job, and then they suffer a physical side effect or a psychological side effect of submission – that results in a wounded soul. Censorship is the most dangerous weapon there is.

## **There's been a push to approve a vaccination for children under five. Talk about the issues you have with that and what parents need to know.**

There is nothing to say other than to quote Dr. Zelenko: "The only reason to be in favor of these shots for children is if you believe in child sacrifice."

# HEART - for the - WORLD

This *Heart for the World* was truly special for our whole family. It was such a blessing to have such dear friends join us for a powerful time of sowing into building the Kingdom and pouring out God's love to the nations.

## EXPOSED

## WHEN SCIENCE UNCOVERS LIES

A man sits in a hospital room watching as his wife fights to breathe. Four months ago, they listened to the news presenting "the facts" and proceeded to get vaccinated because they were told it would keep them safe. Now, he sits wondering if he was told the truth.

In the bleachers of a high school basketball game, a mother cheers on her son as his team leads 42 to 30. As he trots across the court, he smiles at his mom. Moments later he collapses to the floor. The doctors told her he had inflammation of the heart, likely caused by his recent COVID vaccination. Blindsided, she thinks why didn't someone warn me this could happen.

Since the onset of the COVID vaccination rollouts, countless lives have been forever changed, either through failed promises or unexpected injuries, and many are simply due to the fact they were never allowed to hear the truth. From the beginning, there has been a concerted effort to silence anyone who questioned the mandated protocols or the narrative, even if those who were speaking up were doctors, nurses, scientists, and medical researchers.

In perhaps the most explosive collection of interviews from experts and medical professionals treating patients on the frontlines, *Exposed: When Science Uncovers Lies* gives a startling look at voices being silenced and the information that is being withheld from the public.

It's time you know the truth. Your family's health is too important not to have this information. So bring home the power-packed DVD, *Exposed: When Science Uncovers Lies*, today by using the enclosed form to give a special gift to help Daystar continue shining the light of truth. Reclaim your medical rights today!

Dear Partners and Friends,

Words could never express just how much of a blessing you are! First, I want to thank all of you who have emailed, called, and sent cards voicing your condolences and support after my sweetheart, Marcus, was promoted to Heaven. It meant so much to me personally and to my family. Second, I'd like to say a big thank you to everyone who gave and pledged during our recent *Heart for the World*. I was deeply touched that so many of you are helping carry on Marcus's legacy and vision for Daystar. He laid such a great foundation, and you are taking that vision forward into a new season. **Thank you for standing with me and with Daystar**, and I know Marcus is in that great cloud of witnesses looking down to cheer all of us on and is rallying Heaven on our behalf.

This *Heart for the World* was truly special for us. It was such a blessing to have such dear friends like Perry Stone, Robert Morris, Rabbi Jonathan Cahn, John Hagee, Jimmy Evans, Larry Huch, Dr. Bryan Ardis, Del Bigtree, Lance Wallnau, and Darius Johnston join us for a powerful time of sowing into building the Kingdom and pouring out God's love to the nations. Because of your giving, **we've already sent out over half a million dollars to help rescue Jewish families and bring humanitarian aid to the region in and around Ukraine**. Through the support of partners around the world, we were able to give **\$100,000 to Orphan's Hands** to help the displaced refugees, as well as give **\$200,000 to Christians United for Israel** and **\$250,000 to Ezra International to help Jewish families being affected by the war**.

I want to extend a special thank you to the many ministry friends who shared special messages and memories to honor Marcus' legacy. We will never forget how much it blessed our family, and please know that your encouragement and how you are standing alongside us has truly touched our hearts.

Looking ahead, I'm reminded of just how passionate Marcus was for the future, and **I want you all to know that each of you have a part in his legacy**. I've received many words from various prophetic voices that God will be faithful and is taking us forward into even bigger things. There are some exciting developments and major opportunities that are just on the horizon, and I can hardly wait to share them with you. So, be sure to keep an eye out for some major announcements in upcoming newsletters. Thank you again, and **I pray the Lord pours out His favor and blessings on you this year!**

Yours in Christ,

Joni Lamb  
Co-Founder & President

## JONI TABLE TALK

### APRIL 4

#### A Pathway to His Presence

**Paula White**

Step into the presence of God by discovering how Jesus is represented through the parts of the Tabernacle as Paula White joins the table to talk about her book, *A Pathway to His Presence*.

### APRIL 7

#### All Things Lovely

**Jenn Johnson**

Reprioritize your life as Jen Johnson shares what God showed her through a difficult season and the blessings she found focusing on *All Things Lovely*.

### APRIL 18

#### The Passover Prophecies

**Chuck Pierce**

Transform your perspective as Chuck Pierce shares how we are living in a new era and reveals what promises and blessings are ready to be released in connection with the Passover.

### APRIL 19

#### Mysteries of the Messiah

**Jason Sobel**

Uncover the *Mysteries of the Messiah* as Jason Sobel connects the Old and New Testament to reveal the link between the beginning of the time, Jesus, and the Last Days.

In the ugliness of this season I have realized I cannot feed myself and remain uplifted by watching secular news. I cannot trust what I am hearing. I have found *Joni Table Talk* to be wonderfully informative from a source that is highly trustworthy. Most of all I don't feel like I'm being manipulated or deceived. THANK YOU for speaking truth into the issues we face day to day.

Last year the doctor told me my newborn had low PCV levels shortly after birth. Deeply upset by the diagnosis, I went home and immediately turned on Daystar for encouragement. While watching *Heart for the World*, I sensed the Holy Spirit telling me to give in support of Israel, so I did. About a week later, I went back to the hospital and was told her PCV levels were totally normal—what a miracle! Today I'm praising God and so thankful for the privilege of partnering with Daystar to bless Israel!
